

DAILY LESSON PLAN

Math GRADE:3

(NO.12/12)

INTERNATIONAL DAILY LESSON PLAN

Unit 1: Whole Numbers.

Date: _____

Topic: Review Exercise

Year Level: 3

Key Learning Area: Roman numbers, place value of numbers upto 5-digits,

Comparing of numbers, ordering of numbers, estimation of numbers.

Outcomes: Students will be able to understand and illustrate the basics of whole numbers.

Lesson Structure:

Time	Introduction (Set):	Teaching Approaches
------	---------------------	---------------------

10 min.	<p>Recall your previous lecture with your students.</p> <p>Do some board practices with different number operations</p> <p>Closely observe your students while they practice the sums.</p> <p>Once you get satisfied with their performance. Ask students to open their notebooks, page number 32.</p> <p>Tell students, "Today we are going to practice review exercise by using all whole number concepts and methodology as a strategy to solve numerical as well as daily life situations."</p>	<p>Read question number 1 to your students. Questioned them about given numbers. Ask them to change the numbers into Roman numbers.</p> <p>Closely observe their practices. Help them in solving the review exercise.</p>
---------	---	---

LESSON STRUCTURE:

Time	Main Content:	Teaching Approaches
------	---------------	---------------------

25 min.	<p>Once the students solve the above-mentioned questions. Ask them to solve the question numbers 2 and 3.</p> <p>You can perform the short activity from any previous lecture to solve the related questions to remind the students that they have done it, this way before.</p> <p>Encourage them solve the question numbers 4, 5, 6 and 7.</p> <p>Help your students to solve page number 32. Demonstrate first how to extract the data from the given word problem.</p> <p>Challenge your students by writing any numerical or word problems on the board and encourage them to come and solve them on the board.</p>	<p>Activity 1:</p> <p>Divide your students into groups of 5 and ask them to solve the given questions. Built the healthy competition among them.</p> <p>Do revise the theory of the chapter for the concepts also solve the given examples in the chapter.</p> <p>Closely observe your students.</p> <p>Practice those sums on the board in which you find them struggling.</p>
---------	--	--

Time	Conclusion:	Teaching Approaches
5 min.	<p>Students will be able to solve numerical problems regarding Roman numbers, place value of numbers upto 5-digits, Comparing of numbers, ordering of numbers, estimation of numbers.</p> <p>Students will be able to solve the review exercise and an example of unit 1.</p>	<p>Review the lesson with the students.</p> <p>Give them some printed worksheets related to the whole numbers.</p> <p>Ask for questions.</p>

Resources:

Writing board, chalk/marker, color pencils, sticky notes, Printed or tables written on the chart paper, Incredible Mathematics Grade 3 book, notebooks etc.

Safety Consideration/ Materials

None

Assessment

Related worksheets

Board test

Mind games.

Quiz etc.

Reflection

Students have understood that:

How to solve numerical problems regarding Roman numbers, place value of numbers upto 5-digits, Comparing of numbers, ordering of numbers, estimation of numbers.
